GROW YOUR BUSINESS WITH MAXQ CANNABIS

Take full control of your cannabis business to optimize finance, customer relationship, production and supply chain—all from one platform. Ideal for growth-oriented and large-scale cannabis production operations, MaxQ Cannabis is the unified business management platform transforming the cannabis industry.

MODERN, INTEGRATED BUSINESS MANAGEMENT

MaxQ Cannabis is built on Acumatica, the highly scalable, award-winning ERP, CRM, accounting and project management suite. The cloud-based system delivers comprehensive functions, user-friendly interface, advanced automation capabilities and much more.

BUSINESS MANAGEMENT BUILT FOR CANNABIS

With unified accounting, ERP, CRM, supply chain and e-commerce, MaxQ Cannabis is designed to automate and streamline planning, product data management, lab testing, labeling, reporting, cost tracking, product tracking, tax accounting and compliance.

SEED TO SALE PRODUCT TRACKING

Full RFID tracking from cultivation and manufacturing to packaging and distribution and sales maximizes yields and product mixes to optimize sales and quickly handle recalls.

CONTINUOUS COST TRACKING

With detailed cost tracking, MaxQ Cannabis calculates estimated cost through every stage of the operation and create production cost. 280E costs are captured automatically for transparent reporting.

MULTI-COMPANY, MUTI-CURRENCY REPORTING

Through automated financial consolidations, intercompany eliminations and reconciliations, MaxQ Cannabis supports growth-oriented organizations..

**AUTOMATED COMPLIANCE & REPORTING**

End-to-end auditing, integrated accounting and product tracking support compliance with easy reporting, including Metrc integration.
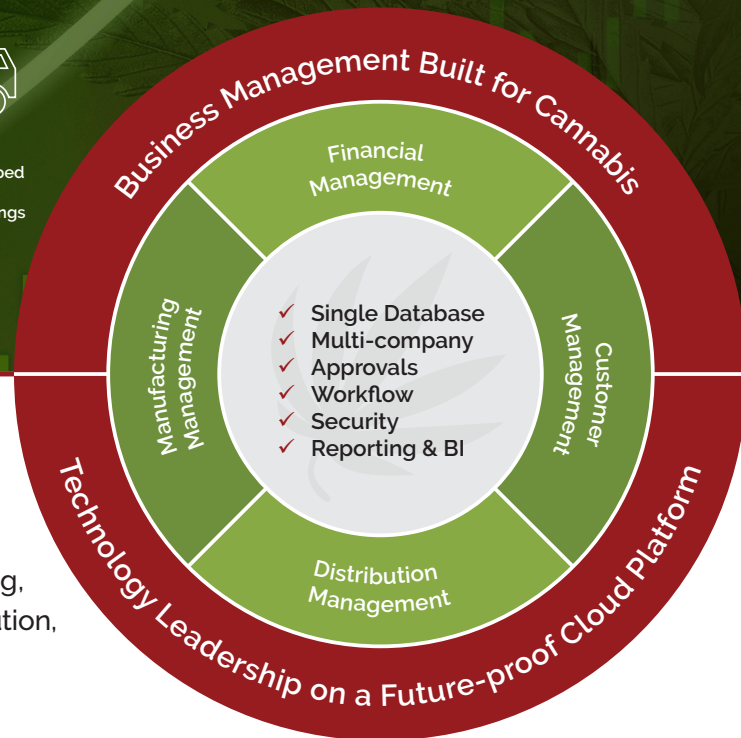

ADVANCED ANALYTICS

Monitor key metrics and use data analytics to measure performance at every level and make more informed, strategic decisions.

MAXQ CANNABIS STREAMLINES OPERATIONS TO MAXIMIZE PROFITABILITY

To get the most out of your business management system, you need a partner with the industry expertise to get you up and running quickly. The MaxQ Cannabis team brings deep experience to your implementation, including on-site assessment, design, customization, setup, configuration, training, and ongoing support.

MaxQ Cannabis unified business management system is faster to implement and designed to support growth and diversification.

DESIGNED TO MEET THE CANNABIS INDUSTRY'S UNIQUE REQUIREMENTS

■ MULTI-ENTITY FINANCIAL MANAGEMENT

With multi-company, multi-warehouse and multi-currency capabilities, MaxQ Cannabis streamlines financial consolidations, intercompany eliminations and reconciliations.

■ PRODUCTION

Data from the extraction and blending processes, including material consumption, finished product weight, labor and processing time are recorded automatically. MaxQ Cannabis tracks lab results, strains, extraction and blending plus can attach Certificates of Acceptance (COAs) to invoices.

■ SALES

The connected data of MaxQ Cannabis supports seamless sales support by linking online orders to your ERP and CRM. Real-time inventory management supports orders split across multiple warehouses, allocations, issue replenishment orders plus the ability to manage complex pricing/discount policies.

■ MANUFACTURING OF EXTRACTS & EDIBLES

MaxQ supports complete packaging, inventory and production planning while recording and tracking by lot number, grower, processor, ingredients, package size and type and delivery data. Comprehensive distribution and sales management handles transportation, delivery, point-of-sale, patient information and customer portals.

■ COMPLIANCE

MaxQ Cannabis enforces internal controls to ensure quality and compliance. End-to-end product tracking (including RFID and barcode tracking), auditing and integrated accounting support automated reporting and transmission, including Metrc integration.

BUILT FOR YOUR MODERN WORKFORCE TO ACCESS ANYWHERE, ON ANY DEVICE

- ✔ PC Laptop
- ✔ Tablet

NATIVE MOBILE APPS FOR IOS & ANDROID BUILT TO SUPPORT GROWTH

- ✔ Unlimited number of users
- ✔ Easy to learn and use
- ✔ Multi-language, multi-currency
- ✔ Extends to key customers, partners, suppliers

BUILT TO FIT YOUR INFRASTRUCTURE

- ✔ Public Cloud
- ✔ Private Cloud
- ✔ On-Premises
- ✔ HIPPA Compliance
